

“A School Where Dreams Come True!”

September 18, 2017

Dear Horizon Families and Friends,

Our school is always looking for ways to create innovative programs and make our students education as universal as possible. Knowing how important music is to develop character and other very necessary skills, we have decided to create a school band at HSA Lorain.

As many of your know, our resources are limited because we are a charter school and receive significantly less funding as opposed to traditional public school districts. Our goal is to either reuse donated items or eventually purchase equipment for all the students who are interested in joining our program.

Friends and families can help by donating any brass, woodwind, or percussion instruments that are no longer in use. Any condition is welcome because we can always try to repair them.

Music is considered the universal language and has a tremendous impact on many lives. We want to make the HSA Lorain School Band a reality, so please help spread the word and promote our school music program.

Please contact me with any questions at oramas@horizonlorain.org, and remember that music can change lives!

Thank You!

Mrs. Oramas
Music Teacher
