## Students from Horizon Science Academy in Lorain show off artwork

Typically, the mission at Horizon Science Academy is to prepare students to succeed in Science, Technology, Engineering and Math (STEM) fields.

Not anymore.

The high school art students' talent is quickly altering the school's philosophy into a STEAM ("A" for Art) approach.

On April 7 at the Huntington Convention Center of Cleveland, Horizon students showcased their talents by winning multiple categories at the Art Fair Competition. This year the Art Fair had a juried show with a panel of seven judges, some of whom are local artists, graduates of Cleveland Institute of Art and fellow educators.

There were three grade level categories with three prizes per group (first, second and third place) K-4, 5-8, and 9-12. Additionally, there were Best in Show, People's Choice, and "Juror's" choice awards.

Horizon winners included:

Senior Division for Grades 9-12: Luis Massa — 1st Place; Jazmin Hernandez — 2nd Place

People's Choice Award: Luis Massa

Paige Nichols

— 1st Place

Juror's Choice: Paige Nichols — Juror's Choice Award

Horizon Science Academy-Lorain provides a college-prep curriculum to students in grades Kindergarten

Luis Massa

through 12 with a high-quality academic and social environment focused on rigorous instruction and high student expectations, with an emphasis on Science, Technology, Engineering and Math.
