

“A School Where Dreams Come True!”

Business Education Partnership Program (BEPP)

The Business Education Partnership Program (BEPP) is a joint effort between Horizon Science Academy of Lorain and the local business community to provide a quality education that prepares each child to successfully enter into the world of work one day. It is an excellent opportunity to benefit a business and enrich a school's involvement in the community. The focus of this partnership is centered on student achievement and developing a successful relationship between our school and local businesses that can enhance long term brand recognition throughout the community for both parties involved.

Below we have listed some of our other primary focuses:

- Opportunities to engage with the local community by sharing expertise and skills
- Develop relationships that will promote potential employees of the future
- Opportunities to be associated with raising educational standards and achievements
- Excellent media and corporate social responsibility opportunities associated with supporting the school
- Improved staff morale through commitment to the local community
- Involvement in a stable and enduring partnership that will benefit the school and future generations of H.S.A learners

HSA Commitments to Local Businesses	Business Commitments to HSA	Benefits for Both Sides
Flyers	Gift/Achievement Certificates	Saves Money
Website Page with Link	Gift Cards	Job Shadowing
Logo in Building on Partnership Wall	Sponsorship of Events	Internships
Newsletters	Donations items (hats, shirts, food, supplies)	Future Employment

“A School Where Dreams Come True!”

August 10, 2018

To Whom It May Concern,

During this summer of 2018, we had some work completed in the front office area with the installation of HV/AC equipment. The worker that was on sight came with the material he needed, and took many breaks throughout the day, ultimately not completing the job. I personally noticed on three different occasions, that he spent significant time on his cell phone. It was at the point where I personally asked him, if everything was ok. It should also be noted that he fell off the ladder and made a few holes in the newly constructed wall. This caused some minor damage to the wall creating the need to have it repaired.

In closing, please feel free to me any time with questions or inquiries regarding this situation.

Sincerely,

Jayson Bendik

Jayson Bendik- Assistant Principal
